To The People.

I am a candidate for the office of County Attorney of Madison. If elected, my rule of conduct in the office shall be, "equal and exact justice to all people; to the rich and poor alike." It shall be my constant endeavor to secure a prudent and economical administration of the fiscal affairs of the county, and thus reduce the excessive rate of taxation. I solicit your aid.

A New Food For Cattle.

Mr. Jake Graves, of Chilesburg, one of Fayette county's largest land owners and cattle dealers, is making a novel experiment in utilizing fox-tail and ragweed for cattle food. The two grasses have taken partial possession of several of his pastures and threaten to kill the native blue grass. This attempted usurpation caused him to mow the pastures and stack the fox-tail, weeds, etc. The stacks will be open to the cattle, and Mr. Graves is of the opinion that they will eat the truck when winter sets in.—Lexington Herald.

The Cause of The Smell at The Postoffice.

Not a few persons have remarked upon the disagreeable odor which greets their nostrils at the postoffice these cold mornings. Investigation reveals the fact that it is not the burning of the incense of the janitor, George Little, but is caused by the furnace which are being tested preparatory for heating the building this winter. This renders proper the story told on General Price, who was Postmaster at Lexington. He was at a great loss to account for an unpleasant odor that haunted the postoffice.

—Mr. Dobbins, Jr., said our eye to one of the cleverest clerks in the office, "can you imagine what an odor makes that abominable smell?" "Why, of course," replied Dobbins, "it's the dead letters." The answer brought down the house and General Price treated to a watermelon.

Capt. Smith Resigns.

In anticipation of his election to the Legislature, but really in order to be eligible to make the race therefor, Capt. J. Speed Smith has resigned the Clerkship of the Kentucky House. Now if the general campaign is beaten by 500 votes by our man Combs—what then? He will make the race for Congress, and if defeated will try for the Richmond post office.

A Perfect Success.

The first of the series of entertainments and lectures for the benefit of the Pattie A. Clay Infirmary, given on Saturday night, was a tremendous success. "Miss Jerry" received the applause of a thoroughly well-filled house, and the audience was delighted. It is a pretty story told in life-size pictures thrown upon canvas with all the vividness of reality, and is the next thing to the Kinetoscope. An advantage over the latter is that the author, Alexander Black, recites the whole story in three acts, while the pictures become so real as to carry one into the very presence of the actors.

Filled a Check Forger.

A stranger purchased \$90 worth of clothing, etc., from Covington & Mitchell on Friday and offered his check for \$150, politely requesting the balance in cash. Mr. Covington was for a moment nonplussed but quickly recovered his equilibrium and telegraphed the Knoxville bank to know if G. B. Lockett's check was good. The bank responded that he was in the city at that time. When the telegram was shown to the teller he dissembled and said he was G. W. Lockett, Jr. This did not tickle the palate of the firm who declared the trade off. Capt. Terrill was put on his trail but he escaped. Other towns take notice.

A New Banking Institution.

The charter of the Second National Bank will expire on November 3, and that well known institution will pass out of existence. Its successor will be the State Bank and Trust Company, which has filed articles of incorporation with the Secretary of State at Frankfort, and is now in the process of organizing. The business on November 4th, with a capital stock of \$100,000. The incorporators are: Messrs. J. Stone Walker, R. E. Turley, John B. Chennault, W. E. Tevis, Jno. R. Gibson, J. H. Powell, David Chennault, Sr., E. D. Ballard and J. A. Smith.

The customary banking business will be conducted, but in addition the corporation is empowered by the charter to do general trust company business, such as acting as trustees, assignees, administrators, guardians, etc. The State Bank and Trust Company will occupy the building of the present Second National Bank. The officers, elected last week, are President, J. Stone Walker, Vice President, W. E. Tevis, Cashier, R. E. Turley, Assistant Cashier, John B. Chennault, Teller, C. H. Chennault. These gentlemen occupy these positions in the Second National and their obliging treatment, conservative policies, and business sagacity have upheld the reputation of this old and successful bank.

Winced Ballard, The Colored Independent.

The card which appeared in these columns last week over the signature of Winced Ballard attracted much attention from the better element of his race who have learned to do a little thinking of their own. Winced gave his people some very wholesome advice when he said that they have been, for more than thirty years, pack-horses for the Republican party and it is high time the colored men were assisting their independence. He very truthfully says the Republican party is not different from what it was thirty years ago. Winced says he has organized an independent society of colored voters, who declare they will vote the Democratic ticket since the Pantagraph used this harsh and slanderous language about a man who has always been a leader and worked among his race for the Republic; who was good enough to be elected their school trustee, and whose humble blacksmith shop was always the Republican headquarters. This is the way the ungrateful Pantagraph speaks of one of the men it would call a patriot if it could longer keep him blinded by prejudice and beguiled by hypocritical white Republicans, who only want his vote and influence.

"Everyone acquainted with that poor, weak piece of humanity, knows he can not write his name much less prepare a manuscript for publication. More than this Winced knows the dimensions of a horse-shoe, but hasn't common sense enough to express himself on the simplest subject, much less on a matter political."

How do negroes like that for a compliment to one who has done nothing out of exercise a free man's right?

Jessamine County Negroes Put Out a Ticket of Their Own.

THE Republicans of Jessamine county are badly rattled, and now since the independent negroes have nominated a full county ticket for office they are bereft of what little hope they had of being let down easy says the Nicholasville Democrat. They know they will get a dull thud drop, as the expression on the faces of Cale Matthews and Henry Easley indicate. They couldn't vote "one pleasant" when their pictures were being taken for the Lexington Leader, and negroes are now being nominated in a ticket and it will be too much out of a big figure on election day. Many negroes who were forced to register against their wills will get even when they go into the election booths where their bosses can't follow. The ticket nominated by the negroes Protective party is not confined to Nicholasville. Following are candidates: J. W. Dougherty, County Judge; Robert Jones, Sheriff; Richard Bayle, Representative; Lafayette Bailey, Jailor; Wm. Davenport, Coroner. They will make a thorough canvass of the county, and had no trouble in securing signatures to have their ticket printed on the ballots. The day of the negro boss is over.

The Journal adds:

One hundred and five negroes, resident of Nicholasville and Jessamine county petitioned the county clerk on the 16th inst., to cause the following names to be printed on the ballots as the Independent Republican candidates for office set after their respective names to be voted for at the November election, 1897, viz: J. W. Dougherty, County Judge; Robert Jones, Sheriff; Richard Bayle, Representative; Lafayette Bailey, Jailor; Wm. Davenport, Coroner. The device by which the party may be designated on the ballot is the picture of Abraham Lincoln.—Jessamine Journal.

Sick-poison is a poison which makes you sick. It comes from the stomach. The stomach makes it out of undigested food.

The blood gets it and taints the whole body with it. That's the way it is.

The way to be rid of it is to look after your digestion.

If your food is all properly digested, there will be none left in the stomach to make sick-poison out of.

If your stomach is too weak to see to this properly by itself, help it along with a few doses of Shaker Digestive Cordial. That's the cure of it.

Shaker Digestive Cordial is a delicious, healthful, tonic cordial, made of pure medicinal plants, herbs and wine.

It positively cures indigestion and prevents the formation of sick-poison.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dining-table. Neither gets the out of doors exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order. In such cases Dr. Pierce's Pleasant Pellets come to the assistance of the bowels, liver and kidneys, by aiding nature in taking of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headache, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will run it. The Pleasant Pellets are tiny sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

—As a tribute to Major J. W. Thomas, President of the Tennessee Centennial Exposition, his colleagues in the management, the citizens of Nashville and of the State of Tennessee, have selected Thursday, the 28th day of October to be observed as "John W. Thomas Day."

To make the occasion as attractive and memorable as possible arrangements are being made for a great industrial parade in Nashville in addition to the many interesting features which will be presented at the Exposition.

In order to contribute to the success of the day by encouraging many visitors, the Louisville and Nashville Railroad Company will put into effect, October 27th and for trains due at Nashville the morning of the 28th, the same low extension rates, including admission to the Exposition and transportation between Union Depot and grounds, which have been made for other special days. Those of our readers who are not familiar with the rates can obtain information from ticket agent of the railroad company.

A felt want is that gnawing at the stomach after you have eaten a full meal, and can't eat any more and yet get that feeling as though you had eaten nothing. What is wanted then is a dose of Simmons Liver Regulator, which has been found to be the best Dyspepsia cure, for it is what that gnawing means. "Simmons Liver Regulator" is all that is recommended for indigestion.—A. R. Dyche, London, Ky.

Another Cob Pipe Factory.

Mr. William Wilcox, a farmer of the Paint Lick neighborhood, has set up a cob pipe factory and will manufacture for Bob Potts, proprietor of the Whites Station pipe factory. In supplying the winter market, Mr. Wilcox has already ordered to the amount of about fifty dozen pipes, at \$1 per dozen, and he says notwithstanding the flourishing (?) outlook for farmers, he thinks there is more money in making pipes than filling the soil under a Republican administration.

In many cases, the first work of Ayer's Sarsaparilla is to expel the effects of the other medicines that have been tried in vain. It would be a saving of time and money if experimenters took Ayer's Sarsaparilla at first instead of at last.

Pain in Medicine.

There are fads in medicine as in every thing else and a "new thing" is sold for a short time simply because it is new. But in medicine, as in nothing else, the people demand and will be satisfied only with positive absolute merit.
